- RIPE NCC supported the RIPE community for 32 of its 35 years - we've done some great things together

- A number of financial (and other) challenges affecting both us (RIPE NCC) and our members

- Review needed to make sure that we continue to effectively meet the needs of our members

- Any changes must be mindful of impact on security and stability of our operations and the wider Internet ecosystem

- Everything we've built so far has been together: we hope you will join the discussions that take place during this meeting and afterwards on the mailing lists and in other forums

  - Register for the General Meeting (GM) on Wednesday

  - Join the BoF "Building A Stable Future for the RIPE NCC" on Tuesday evening
