RIPE NCC ACADEMY

The RIPE NCC Academy is our free online learning platform that offers self-paced e-learning courses to anyone who is interested. It now has over 100 e-learning modules on a diverse range of topics such as IPv6 Fundamentals, IPv6 Security, RIPE Database, BGP Security and Internet Governance.

In 2023, the key focus of our curriculum development team was to improve the quality and user experience of our learning experiences. We conducted assessment interviews, actively seeking input from RIPE NCC members and the community. This ensures that the content remains relevant, addressing the diverse needs of learners and contributing to the ongoing success of online learning initiatives.
